

## ***John Wheatley College***

### ***Swine Flu***

#### ***Notice to the Public***

Members of the Public are asked to note that, as a precautionary measure, John Wheatley College has activated its Flu Contingency Plan.

This follows guidance, in this respect, from the World Health Organisation.

This will not affect the College's planned teaching and learning programmes.

However, this will be a situation which will be kept under review.

Members of the Public are asked to take cognisance of the guidance which has been issued to staff (which can be consulted on this web-site).

Members of the Public and Visitors to the College are advised not to come to the College if they have flu-like symptoms.

They are also requested, whilst on the College's premises, to comply fully with its Plans to mitigate the possible impact of any spread of Swine Flu.

The College thanks, in anticipation, the Public for their continued support and for observing its plans to prevent the spread of any infection.

It also thanks them for their understanding of any disruption which may be necessary to the College's services by its preparation for and its response to the possible spread of Swine Flu.
